BY PHOEBY CAREY. When the morning, halfin shadow, Ran along the hill and meadow, And with milk white fingers parted Crimson roses, golden hearted; Opening over ruins hoary Every purple morning-glory, And out shaking from the bushes Singing larks and pleasant thrushes; That's the time our little baby Strayed from Paradise, it may be, Came with eyes like heaven above her; Oh! we could not choose but love her; Not enough of earth for sinning; Always gentle, always winning, Never needing our reproving, Ever lovely, ever loving; Starry eyes and son-set tresses, White arms, made for light caresses; Lips that knew no word of doubting, Often kissing, never pouting; Beauty even in completeness, Over-full in childish sweetness; That's the way our little baby, Far too pure for earth, it may be, Seemed to us, who, while about her, Deemed we could not do without her, When the morning, half in shadow, Ran along the hill and meadow, And with milk-white fingers parted Crimson roses, golden-hearted Opening over ruins hoary Every purple morning-glory, And out-shaking from the bushes Singing larks and pleasant thrushes; Pining here for heaven, it may be, Turning from our bitter weeping, Closed her eyes as when in sleeping, And her white hands on her bosom, Folded like a Summer-blossom. Now the litter she doth lie on, Strewed with roses, bear to Z on; Go, as past a pleasant meadow, Though the valley of the shadow ; Take her softly, holy angels. Past the ranks of God's evangels. Past the saints and martyrs-holy. To the Earth-born, meek and lowly; We would have our precious blossom Softly laid in Jesus' bosom

HERE SHE GOES.

The following amusing and well told story was published in one of the city papers of Gotham, about a dozen years ago. It occasioned at that time a good deal of merriment, and went through several editions of the paper in which it appeared, the New York Sunday Morning News:

THE MAN IN THE CHIMNEY.

The Syracuse Journal relates the following as an incident happening the other night at the Empire House, (hotel) in that city: Help! help !- I'm suffocating! Get me out

Quick ! quick ! or I shall die.'

Such were the words uttered in sepulchral tones, that resounded through some of the apartments of the Empire House after the boarders had retired to their beds last night. Of course they struck terror to the sympathetic inmates and aroused their dormant energies to instant investigation as to the source from whence the sounds proceeded. Men soon rushfinger waved in a curve, his eyes fully fixed on ed to the windows, and undressed women to the halls. Bells were rung and servants and

guests joined in the search. "Help! help! Tear down the house. Get me out," continued the same mysterious voice. "Who are you?" "What are you?" "What shall we do?" THE LOVERS SURPRISED

Once upon a time, our boarding house happened to be opposite to a neat cottage, where resided a-half-dozen lively and good-natured 'girls,' as ever fell in love. Girls will think of pantaloons, and as 'the men' are dreadful lonely, lean and dismal fellows, unless a half towns, Post offices, Cities, Villages, Post oads and dozen shifts' hang with their pants in the clos-English he could use. It was quite evident that the feelings of our friend Dull, (we must give him a name) were far from desiring too much company-in fact, who could talk to one girl when five blessed bright eyed dears were staring at him. The same plan which has made it so popular hitherto will continue to be pursued. It will som to present regularly, in more elegant dress and at a chapper rate, a larger amount of better randing matter than has ever been given to the Public in any similar periodical, either oreign or domestic. Its contents will be made up with constant reference to the wants and tastes of the great body of the American people, rather than there of any particular class or profession. While it will the endeavor of its conductors, in all its depart ments, to combine entertainment with instruction, meiat care will be taken to exclude every thing that an give just cause of complaint to any interester at y section of the country, and especially every thing that can offend the most fastidious, on the score of taste aable articles have already been prepard for the next volume: the series of Pictorial Articles, written by the most popular authors and illustrated by the most citted and popular artists in the United States, exnessly for the Magazine, will be continued; the hoicest productions of American and European lite-rary talent will be selected for its pages; the variety. nterest, and attractiveness of its Editorial Departments will be increased; and nothing will be left un lone to merit that large share of public favor with which thus far their enterprise has been received.

The Home Journal. THE first number of the new series will be issued on the 1st of January next. New subscribers an be supplied from that date; but immediate apdication will be necessary for such as desire to be in with the beginning. A home is hardly complete, se think we may safely venture to say, without the dome Journal, which, besides being a chronicle of he times, abounds in intell gence designed to enliven a American Home. Its cuitors (Geo. P. Morris and S. P. Willis) devote their entirestime, skill and exarrience, to the task of giving child week, everything worth knowing. They particularly keep an eye on all the whoms and novelties of the day. The utmest mains are taken to present the facts and outlines of all news. In the literary department, we aim at sketch.
s and readable criticism, and in our condensations t the productions of the vast newspaper world of Euope, we endeavor to avoid the thresome and the loal, and tranfer to our columns the pick of Erglish nformation and brilliancy, while we endeavor to seleet with a true sense of pure morals, true wit, and genuine hun or. In addition to the above, we have hade new arrangements for a feature that is always attractive in a family journal. From several differ-ert sources we are to be supplied with the news and possip of New York Society. In a metropolis like ours, centre the more sparkling elements of the life of our country at large, and collision and ettrition bring out much which would else be dormant. Affeat, n society goesty, is a small world, of which the orlinary newspapers make no report, and of this we think we can promise amusing photographs. In aunouncing also, a new series of articles by Mr. Willis, n addit on to his usual labors, we claim the privilege of leaving them to designate their (wa still and title as they appear. They are quite different from anything which has ever been published in this journal from his pen, and we are very sury that they will be no less attractive, to say the least. The gray big and highly-finished sketches, by "The Lady of Shaint." "Lanothy Quain," and others, will be centin-tianed. We have also new cornespondents in Lorden and Paris, who will send us much that could haver each us through foreign journals.
